SUMMARY

- Professional designer and experienced project manager through Architecture.
- Skilled at identifying flaws in existing processes. Accomplished in refining and implementing changes.
- Calm and composed individual. Coupled with a contagious optimism.
- Approach every project by identifying what success looks like for the client- only then should you backward rationalise to find the steps to achieve that purpose.
- Exceptional communicator. Clear and concise in speaking with clients, colleagues and designers.
- Passionate about storytelling through great design and powerful narrative.

TECHNICAL SKILLS

- User Experience Design
- User Interface Design
- Design Sprint 2.0
- Basic HTML5/CSS3
